Meetings, Conferences & Events (MCE)
MCE has vast experience that you can leverage at any time while planning your conference.

MCE can act in a consultative manner or provide actual services.

MCE single point of contact - please contact MCE’s Customer Relationship Management Team at ieee-mce@ieee.org
Ways that MCE Can Assist You
Consultative Advice - Complimentary

- Overall guidance
- Identifying sponsors
- Finance, budgeting, insurance, contracts
- Memorandums of Understanding (MOUs)
- Site location, event management, meeting logistics
- Publication of your proceedings
- Marketing your conference
- Contract negotiations, food & beverage planning, supplier management
- Conference Organizer training and education
For general questions regarding conferences please contact MCE’s Customer Relationship Management Team at ieee-mce@ieee.org.

Be on the look out for MCE’s Conference Organizer Education Program Roll out!

Glossary

Technical Program
Conference Finance
Conference Publications
Conference Sponsorship
Glossary - Sponsorship

- **MCE**: Meetings, Conferences & Events department
- **CRM**: Customer relationship management
- **Memorandum of Understanding (MOU)**: a document describing a bilateral or multilateral agreement between two or more parties. IEEE requires an executed MOU for all co-sponsored conferences.
- **Organizational Unit (OU)**: An IEEE Region, Section, Chapter, Student Branch or Society
- **For-profit organizations**: Commercial organizations that operate as businesses whose primary directives include creating profit which is expended as those businesses choose, including distribution to shareholders and owners.
- **Non-Profit**: Organizations which are established to further a social cause, such as education, government, charity, or professional enrichment, and which do not distribute surplus funds to owners or shareholders but instead use earnings to help pursue their missions or organizational goals.
Reviewer: You play a key role in ensuring that only papers of the highest quality are published.

- The IEEE has published guidelines regarding reviewers in the IEEE Publication Services and Products Board Operations Manual (PDF).

Abstracting service: a service that provides abstracts of publications, often on a subject or group of related subjects, usually on a subscription basis.

Indexing service: a service that assigns descriptors and other kinds of access points to documents.

IPR: Intellectual Property Rights

MCE: Meetings, Conferences & Events department
Glossary – Technical Program

- **Peer Review/Tool**: A peer review is a process where technical papers are reviewed by qualified individuals who are experts in the same field. Peer reviews are used to determine a technical paper's suitability for publication. IEEE recommends that you use a peer-review tool to manage conference papers. A peer-review tool helps you to follow a consistent process and improves the quality of your reviews.

- **Plagiarism**: IEEE defines plagiarism as the reuse of someone else's prior ideas, processes, results, or words without explicitly acknowledging the original author and source.

- **Single blind review**: The reviewer’s name is unknown to the author.

- **Double-blind review process**: This means that in addition to the reviewers being unknown to the authors, the authors will be unknown to the reviewers. The double-blind review process is a way to prevent bias or the perception of bias towards any author.

ISSN number: Another identifier, the International Standard Serial Number (ISSN), identifies periodical publications such as magazines.

Document Object Identifier (DOI): A character string (a "digital identifier") used to uniquely identify an object such as an electronic document. Metadata about the object is stored in association with the DOI name and this metadata may include a location, such as a URL, where the object can be found.

Abstracting service: A service that provides abstracts of publications, often on a subject or group of related subjects, usually on a subscription basis.

Indexing service: A service that assigns descriptors and other kinds of access points to documents.
**Letter of Acquisition (LoA):** The Letter of Acquisition (LoA) is an agreement between your conference and IEEE to consider your conference for acceptance into the Conference Publication Program (CPP) and IEEE Xplore®.

**Conference Publications:** refers to all material that is published in relation to the conference, including but not limited to the conference's final program and the conference proceedings that result.

- [http://www.ieee.org/conferences_events/conferences/organizers/pubs/conference_publications.html](http://www.ieee.org/conferences_events/conferences/organizers/pubs/conference_publications.html)

**Journal Factor / Impact factor (IF):** an academic journal is a measure reflecting the average number of citations to recent articles published in the journal. It is frequently used as a proxy for the relative importance of a journal within its field, with journals with higher impact factors deemed to be more important than those with lower ones.

**Citation:** a reference to a published or unpublished source (not always the original source).
What is Copyright?

- Copyright is one of a group of intellectual property rights (or laws) that are intended to protect the interests of an author or copyright owner.

- These laws give an author/owner nearly exclusive control over the use of his/her work. In particular, copyright protects the specific expression of an idea (e.g., the specific wording of your text) but not the idea itself.

- Copyright comes into existence the moment a work (an article, a book, a computer program, an email, a symphony, a sculpture, etc.) is first fixed in any tangible medium of expression, now known or later developed, from which it can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device.
Copyright (continued)

What happens when an author signs the IEEE Copyright Form?

– When an author signs the IEEE Copyright Form, he/she is transferring ownership of the copyright rights in the work to the IEEE. In other words, the IEEE becomes owner of the paper when the author signs, dates and submits an IEEE Copyright Form.

Front matter: Title page, copyright page, table of contents
Revenue: Income that a company receives from its normal business activities, usually from the sale of goods and services to customers.

Expense: An outflow of cash or other valuable assets from a person or company to another person or company. This outflow of cash is generally one side of a trade for products or services that have equal or better current or future value to the buyer than to the seller.

– In double-entry bookkeeping, expenses are recorded as a debit to an expense account (an income statement account) and a credit to either an asset account or a liability account, which are balance sheet accounts. An expense decreases assets or increases liabilities.
Direct Tax: The term direct tax generally means a tax paid directly to the government by the persons on whom it is imposed.

Indirect Tax: An indirect tax (such as sales tax, a specific tax, value added tax (VAT), or goods and services tax (GST)) is a tax collected by an intermediary (such as a retail store) from the person who bears the ultimate economic burden of the tax (such as the consumer). The intermediary later files a tax return and forwards the tax proceeds to government with the return.

d/b/a: Doing business as
Additional Information

Conference Organizer
Tips & Tools

Budget
Packing List Generator
Taxes
A helpful tool for the budgeting process is the Conference Budget Planning Worksheet

- This tool that will help you organize your conference's financial information (optional: you can use your own budgeting tool)
  - Budget checklist and worksheet
  - Revenue and expense worksheet - filling out this form will lead to a more accurate projection of your conference's net surplus or deficit
  - Social function tracker
  - Financial summary
  - Certification of Accuracy
  - Conference closing requirement checklist
IEEE’s financial reporting workbook is available at: www.ieee.org/documents/financial_reporting_tool.xls

The tool produces a summary report that is helpful for reporting.
It is required that you submit your budget to IEEE at the Conference and Event Financial Reporting page:

- http://www.ieee.org/conferences_events/conferences/organizers/conf_app.html?pageType=finance

This application allows you to submit your budget, forecast and actual finance & compliance information to IEEE:

- Completing the form should take 10-15 minutes

You are submitting a summary of conference revenues and expenses, registration rates, and projected attendance statistics.

If you would like assistance with submitting your budget, contact the Conference Business Operations Team.
Java Runtime Environment (JRE) version 1.5 is the minimum version that runs the program, 1.6 or later is recommended.

Start the PLG by double clicking on the packinglist_v1.4.jar.

Choose the type of packing list you want to create, the default is “Conference Proceedings”.

Setting Preferences: change if necessary:
- For conferences make sure the value is NOT open access.
- Select appropriate no show policy.
  - (conference non-presented paper policy)
- Click “Next” to proceed.
This form collects publication level information and information about who should be contacted if there are any questions about the packing list. Complete form.

- Click “Next”
- Basic validation occurs
  - Example: ISBN or ISSN must be valid
  - If there are no errors the following window opens

Use the PDF browser to locate the folder containing the PDF files for publication
Click on “Select All” to select all the PDFs. To exclude a PDF from the packing list, uncheck the box next to the file name.

- Exclude is not suppress

Update the content types

- Table of contents

Update the “Suppress” column if applicable

- Used for “No Show” – if conference policy dictates

See under the Resource Section, the link to download the PLG, it provides additional detail on utilizing this tool.
Income Taxes – completing a 1099 form is required when payments are made to U.S. citizens and US resident aliens

Income Taxes – completing a 1042 form is required when payments are made to a non-U.S. citizens from a conference located in the United States

Tax reportable payments include: Awards, grants, honoraria, prizes, commissions

Gather the following information before payment is made:

- Full name & Permanent Address
- U.S. Citizenship Status (Citizen, Resident Alien, etc.)
- U.S. Social Security # (if US Citizen/Resident Alien)
- Total payments issued in $US
- Calendar year payment was made
- Purpose of payment
Tax Collection & Reporting
Indirect Tax

- It is mandatory for all conferences to comply with applicable indirect tax requirements such as Value Added Tax (VAT), Goods and Services Tax (GST) and Sales Tax
  - Each country sets its own regulations, handling of indirect taxes can be complex

- It is recommended to contact the Conference Business Operation team for guidance. For complex situations, the IEEE Indirect Tax group is also available to assist
  - Budgeting for VAT
  - Consulting for tax compliance
  - Tax return filing

- Full indirect tax compliance service is available for the following countries:
  - Italy, France, the Netherlands, Portugal, Spain, the United Kingdom, Germany, Austria, Czech Republic, Ireland, Greece, Hungary, Australia
